

## VALLEY AMBULATORY SURGERY CENTER

*Dedicated to Excellence in Patient Care*

# Online Pre-Operative Registration

We recommend that you enter your medical history online as soon as your surgery has been scheduled. Once you do this, our nursing staff will be able to access the information you entered online. This is a secure website shared only with your treatment team and returning patients will be able to update any existing information at any time. This information will assist nursing staff in organizing and documenting your complete medical history to prepare for your surgery.

To begin:

1. Go to our website: [www.valleyambulatory.com](http://www.valleyambulatory.com)
2. Select **Pre-Registration** on the front page
3. Click **One Medical Passport**
4. Accept the terms of use and click **Register**
5. Complete the registration and medical history screens, click **Finish** to submit your Medical Passport to the medical facility

Be sure to have the following information available before starting your Medical Passport:

- ✓ Your health insurance information
- ✓ The names, addresses, and phone numbers of your physicians
- ✓ A list of all medications you are taking, their dosage and frequency
- ✓ A list of surgical procedures you have ever had and their approximate dates

**Note:**

***If you are not able to complete your history online, one of our Pre-Operative nurses will contact you the day before your surgery to complete the information by phone. Please have all the above information available when they call. Please allow 20-30 minutes for this call.***
